

July 8, 2010

Dear Mr. Sackett,

I'd like to extend my support for the proposed new venue called Fairmont Butte Motorsports Park in the North L.A. County area of Lancaster. I live in the Santa Clarita Valley and would thoroughly enjoy a new first rate complex such as Fairmont Butte with not only myself, but with the entire family.

Over the years I've been watching other "Motorsport Country Clubs" come to fruition only to wonder why none have done so in California. The problem with the current track facilities throughout the state is that they are not only archaic, but they don't cater to family use. Too many times we go to the track with other males leaving the wife and kids behind. With the proposed facilities Fairmont Butte has to offer, one could only imagine the exposure and economic benefit a local community could have when entire families visit and use such facilities. Not to mention the other economic benefits from construction, permit & planning fees, school fees, employment, retail taxes, housing needs, property taxes, etc. I even envision more visits to the state poppy reserve due to it's close proximity to the proposed venue where families can enjoy motor sports and nature in the same weekend.

Southern California is lacking in first class motor sports venues and it is my belief that Fairmont Butte Motorsports Park will fulfill that void. We need to catch up with the rest of the nation in regards to first rate motor sports facilities and the Malloys are my horse to go with. In these hard economic times there may not be another opportunity like this for the County for decades to come. Lets take advantage of what the Malloys envision and approve the project at hand.

Please take the time to carefully review the benefits of a positive forever lasting impression the planning commission could bestow upon the community when a project of this size and magnitude are designed and built with forethought, environmental awareness and professionalism.

Sincerely,
Jeff Horne
